

"In His Own Good Time"

At the end of life, there are **two thoughts** which can help guide us all:

The first is that we love life. Respecting life means that every person must be valued for as long as they live. Every person is loved by God and every life is a precious gift never to be destroyed or neglected. *It is wrong to hasten or bring about death.* God will call us in his good time.

The second is that we accept death. This means there is no obligation to pursue medical treatment when it no longer has any effect or, indeed, harms the patient, or where the risks or burdens of the treatment outweigh the likely benefits.
